

## Greedy

### Success Criteria:

- Only accepts positive floats
- Correctly converts change into quarters, dimes, nickels, and pennies
- Only prints the coins higher than 0

### Test Plan:

- Normal Circumstances:
  - Positive integer
  - Negative integer
  - Positive float
  - Negative float
- Error/Abnormal Circumstances:
  - Characters/Words
  - Special characters
  - Math

### Test Data:

Input	Circumstance	Expected	Actual	Evaluation
3	Normal	12 quarters	12 quarters	Passed
-7	Normal	That's not a valid input	That's not a valid input	Passed
2.35	Normal	9 quarters 1 dime	9 quarters 1 dime	Passed
-0.47	Normal	That's not a valid input	That's not a valid input	Passed
five	Abnormal	That's not a valid input	That's not a valid input	Passed
!@#\$%	Abnormal	That's not a valid input	That's not a valid input	Passed
1.57*3	Abnormal	That's not a valid input	That's not a valid input	Passed
